

This report is furnished by BCCA to a member of the association upon request and upon the understanding that the report will be held in strictest confidence, and will be used exclusively by the member requesting it as an aid in determining the member's own credit decisions and for no other purpose. Reports are compiled from sources which BCCA does not control, and BCCA does not guarantee the accuracy, completeness or timeliness of the information set forth in the report or assume liability to any party for any loss or injury sustained that is caused by the member's use of reports. Rather, the member, in exchange for use of reports, agrees to hold BCCA, its officers, directors, members and staff harmless against any claims for damages arising from any decisions that the member may make based on information in the reports. Members should make credit decisions only upon the basis of up-to-date information. While BCCA does not guarantee the timeliness of any report, as stated above, BCCA, on request, will furnish any member with an update to any report that is indicated as "last updated" more than six months previously. A "last updated" date appears when any credit report is accessed. Reports may be listed as "incomplete" because they lack three references. This does not mean that BCCA guarantees the completeness of reports having three or more references, as the above disclaimer regarding completeness applies to all BCCA reports.
